Information about the file weight: <http://bit.ly/2gyBYfO>

LEAD TIME

- Five days

Send the assets to: de-ads@opera.com

*Important: Apple announced its "ATS Enforcement", which will require HTTPS connections for iOS apps by the end of 2016. At the same time publishers are also moving toward default use of HTTPS on their mobile websites. These changes require ad units to use secure connections for assets, tracking and redirects in order to work and track properly. **Please provide all assets like click commands, redirects, third party trackings, links to images, etc. SSL compliant.**
